

Experience by Country

2019 Update

Region/Country	Selected Project Experience Summary
Africa	
Algeria	Regulatory and reputational risk review, EIA for exploration activities, management system assessment
Angola	ESHIA for four exploration programs, risk assessment, due diligence assessment, ESIA screening
Cameroon	Non-technical risk/new country entry screening
Chad	Review of the Chad-Cameroon pipeline project EIA for World Bank
Cote d'Ivoire	ESIAs for 15 E&P programs, community engagement/CLOs, capacity building/IFC PS training, social investment program
Egypt	EIA for onshore seismic and drilling program, regulatory roadmap and risk profile for new country entry
Equatorial Guinea	ESIAs for three exploration programs, environmental regulatory register, above-ground risk assessment
Ethiopia	ESIA screening for new country entry
Gabon	ESIA screening for offshore production, new country entry environmental and social risk assessment
Ghana	Legislative benchmarking and needs assessment for Ghanaian regulators, new country entry environmental and social risk assessment, IFC expert review, independent study of marine environmental trends
Guinea	New country entry environmental and social risk assessment
Kenya	Multiple ESIAs, social baseline assessment and stakeholder / community engagement programs
Liberia	Multiple ESIAs, environmental baseline sampling programs, waste management plan, training for EPA and World Bank
Libya	EIA scoping, oil spill response program, and worked in ports
Malawi	Capacity building for local partner in providing consulting services to extractive industries and development programs
Mauritania	ESIA/permitting, Non-technical risk assessment, CSR assessment and strategy, Local content / capacity development strategy
Morocco	Social baseline study, SIA and stakeholder engagement planning for oil exploration program, and port development.
Mozambique	Social investment strategy implementation, above-ground risk assessment
Namibia	New country entry environmental and social risk assessment
Nigeria	Extensive experience in EIA (8), community engagement, site assessments, Resettlement Plan for solar farm development
Republic of Congo	ESHIA facilitation for an offshore development program, new country entry environmental and social risk assessment
Senegal	Regulatory register for oil and gas exploration and development, government capacity building, training
Sierra Leone	New country entry environmental and social risk assessment
South Africa	Human rights impact assessment, environmental and social risk assessment
Tanzania	Work proposed with in-country partner for offshore E&P Strategic EIA
Tunisia	Initial ESIA for offshore exploration, stakeholder engagement and social investment planning
Uganda	Social risk/community engagement planning support, capacity building for local partner
Americas	
Argentina	EIA and environmental sampling program for offshore drilling and aviation terminals, ESIA management for pipeline, due diligence
Bahamas	Feasibility study for exploration activities in a sensitive marine environment, ESIA, engagement, gov't capacity building
Barbados	ESIA screening for offshore oil and gas production, supplementary ESIA and risk assessment for large resort, ESA for road upgrade
Bolivia	Four EIA for onshore seismic survey, two EIA for onshore exploration drilling, EIA review for pipeline development
Brazil	EIA for >12 E&P programs, benchmarking of best practices in oil and gas E&P in sensitive areas, ESHIA training, management system development, ESIA screening, environmental and social risk assessment, slave labor assessment
Canada	Due diligence studies of petrochemical facilities, capacity building for local communities, SD strategy for mine development
Chile	Design of baseline study for oil field development, ESIA management for trans-Andean pipeline
Colombia (Branch Office)	ESIA and Indigenous prior consultation programs for onshore seismic survey, social investment program design and coordination, ESIAs for five offshore exploration programs, expert witness testimony re: impacts, non-technical risk screening
Dominican Republic	Environmental and social due diligence for industrial assets transfer
Ecuador	EIA and SIA for exploration and pipeline development programs
El Salvador	Environmental due diligence studies
French Guiana	Social baseline study, non-technical risk study, local skills and capacity building assessment
Guatemala	Environmental due diligence studies, onshore exploration ESIA screening
Guyana	ESIA, environmental/non-technical risk screening study, regulatory register
Haiti	Environmental and social due diligence study for acquisition of industrial assets
Honduras	ES due diligence study and ESHIA management capacity building for investors in renewable energy developments
Jamaica	ESIA Screening, in-country partner
Mexico	Risk and due diligence assessments for investors, environmental/social performance capacity building and management advice to PEMEX, \$19M organizational change program for PEMEX, baseline studies and non-technical risk assessments of oil fields
Nicaragua	ESIA, stakeholder engagement plan, environmental and social risk assessment, regulatory register for oil and gas E&P
Panama	Independent review of SIA/stakeholder program for Panama Canal expansion for the World Bank
Paraguay	Rapid environmental assessment for port development
Peru	Onshore production ESIA screening, due diligence assessment, government capacity building program/FPIC process assessment
Suriname	ESIA for mining industry development, community investment needs assessment and strategy
Trinidad and Tobago	ESIA and due diligence for LNG plant and pipeline, four EIA for offshore seismic surveys, EIA for offshore drilling and production program, environmental and social due diligence studies, IHAZID facilitation for offshore development
Uruguay	New country entry environmental and social risk assessment
Venezuela	Baseline studies, socioeconomic survey and ESIA, environmental and social risk assessments for LNG, pipeline, and gas field, due diligence studies, social impact and reputation assessment, management system gap assessment

Region / Country	Selected Project Experience Summary
Asia Pacific	
Australia	EIA support, E&P environmental management best practices study, environmental and social risk assessment
Bangladesh	Environmental, health and social risk assessment of oil field operations, IFC ESIA and critical habitat assessment for LNG terminal
China	ESIA, regulatory roadmap and risk screening for petrochemical plant development, offshore exploration ESIA screening
India	Environmental baseline study, ESIA screening and management system development
Indonesia	ESIA screening, stakeholder engagement planning advice
Korea	Environmental due diligence for major petrochemical complex
Malaysia	Social baseline study, stakeholder engagement plan, human rights screening, ESHIA training/mgt system development
Pakistan	Rapid environmental assessment, partner in place
Papua New Guinea	Development of three-way partnership with local consultancy and NGO for services and training
Philippines	ESIAs, social baseline study and stakeholder engagement, including indigenous consultation/tenure management plan
Sri Lanka	Community risk assessment and stakeholder engagement strategy for mining development
Thailand	ESHIA and environmental and social risk assessment, ESHIA training, ESIA/reg roadmap/risk screening for refinery expansion
Vietnam	Offshore exploration ESIA screening, emergency response planning, stakeholder engagement plan
Eurasia	
Azerbaijan	Onshore and offshore baseline studies, EMS development
Kazakhstan	ESHIA, risk assessment, port development environmental and financing feasibility study
Russian Federation	Due diligence, training, offshore baseline study
Ukraine	Limited experience
Europe	
Cyprus	Regulatory register for oil and gas exploration and development
France	Reputation risk management program for telecom and logistics industry
Greece	In-country work experience (shipping) and studies
Netherlands	Environmental, health and social risk assessments for North Sea production and onshore pipeline
Norway	Rapid environmental and regulatory assessment
Spain	Environmental audit of pharmaceutical facility
UK	ES/Health risk assessments for North Sea production
Middle East	
Bahrain	Rapid assessment, business strategy support
Iraq	ESIA screening, environmental and social risk assessment, IFC-focused expert review of ESHIA for oil field redevelopment
Israel	ESIA for regional offshore exploration drilling program, new country entry environmental and social risk assessment
Kuwait	HSE management system standards development and training, environmental and social risk assessment
Saudi Arabia	Management system development and training for production in the largest offshore oil field in the world

Acorn International delivers the expertise, solutions and assurance that global businesses need to avoid damaging community unrest, environmental degradation, and shareholder activism so that they can operate profitably in high-risk environments.
